## THE COLLEGE

Wellesley College is a liberal arts college for women situated in the township of Wellesley, Massachusetts, twelve miles west of Boston. Much of the five hundred acre campus was once the country estate of Henry Fowle Durant, a wealthy Boston lawyer. In the 1860s Mr. Durant and his wife, moved by religious convictions, decided to establish a residential Christian college that would "offer to young women opportunities for education equivalent to those usually provided in colleges for young men." It was Mr. Durant's hope that in this college young women could prepare themselves "for great conflicts, for vast reforms in social life, for noblest usefulness." The decision was followed by years of preparation until the College received a charter on March 17, 1870 and in September 1875 was opened to three hundred and fourteen students.

The resources and size of the College grew steadily. The single building with which Wellesley started, College Hall, housed all students and faculty and contained the library, chapel, classrooms, and laboratories. As the number of students increased, other buildings were added, but College Hall remained the center of community life until it was destroyed by a great fire in 1914. Gradually Wellesley was rebuilt; in place of one enormous structure housing many activities, buildings for special uses were erected on the various hills on the campus.

Today more than forty buildings provide facilities for the intellectual and community life of the College. Thirteen of them are residence halls for undergraduate students. The halls are large, with the result that the student, who finds that academic instruction is usually given in small groups, forms a wide acquaintance in the course of her residence with people who come from many different regions.

Wellesley College believes that the study of the liberal arts develops perspective and intellectual strength for the endeavors of a lifetime. It seeks to give to the student broad knowledge of her cultural heritage and to develop her competence in and respect for disciplined, honest thinking. These purposes of the College have re-

mained constant since its founding, while the particulars of its programs are frequently revised under the influences of the changing contemporary world.

The faculty is composed of approximately 160 men and women, trained in many different universities here and abroad and chosen to maintain Wellesley's tradition of good teaching and sound scholarship. The student body includes more than 1,700 young women who bring to the community the cultural, economic, and regional diversity of the United States, and also representation of many foreign countries. Because of the size and composition of the College the student meets a wide range of viewpoints and fields of special interest; yet she finds that the policies of today permit education to be an individual process as it was when the College began.

Most classes are small enough to make possible the exchange of ideas between student and teacher and to enable the faculty to know and plan for the needs of each individual. Variations from this pattern occur in large extradepartmental courses, some two of which the student is expected to elect; in occasional large classes in some departments; and in the requirement that each student, ordinarily as a junior, devote a portion of her time to studying independently a topic which she selects. Upperclass students may undertake further individual work within the regular program or in an honors program.

The entering student is invited to explore various fields in the liberal arts and sciences, particularly those of her probable special interests. When she decides on her area of concentration, she can then select courses in other fields to provide complementing or contrasting experiences. These, together with her major, will enable her to achieve a broadly liberal education.

Each student is expected to take the initiative in planning her program and in meeting her academic and residential obligations. At various times before reaching decisions she may need counsel or may wish to talk freely with an older person about her academic or personal life. At such times she can turn to her class dean who keeps in touch with her academic progress and her personal welfare, to her instructors, including the ordained ministers in the de-

partment of Biblical History, to the resident head of her house, or to the college physicians and psychiatrists. After she selects a major, she will also find helpful the chairman or her adviser in the major department. If she has financial difficulties, she may turn to the Financial Aid Officer or the Students' Aid Society. If she wishes paid work during the academic year or in vacations, or if as a graduating senior or an alumna she wishes employment, the Placement Office is prepared to help her. Because maturing independence is respected, advice is not thrust upon the student, but it is readily available from experts in various areas and from intelligent adults interested in each individual.

The learning situation created by student and teacher is strengthened by the quality of the physical facilities available for their use. At Wellesley the student of the biological or physical sciences finds laboratories unusually well equipped for undergraduate work and having in addition equipment for the work of graduate students and professors, whose research activities she may be invited to share. The student of art finds in the permanent collections on the campus a representative selection of monuments and extensive collections of books, slides, and photographs, as well as rotating loan exhibits. The student of music finds listening rooms where she has access to large libraries of records and practice rooms equipped with grand pianos. The student of language has a language laboratory available for her use, and for interested students of modern languages special residential corridors may be maintained. The student of statistics has an interdepartmental laboratory open to her. Any student interested in the young child may observe and work with boys and girls in the college laboratory school for three, four, and five year olds.

Every student benefits from the library collections which are unusual in size and quality for an undergraduate college. The working library contains approximately 400,000 volumes carefully selected to meet the needs of the faculty as well as the students. Subscriptions to about 1,600 American and foreign periodicals and the deposit of certain government publications important to the student of the social sciences add to the usefulness of the library. Special collections, containing rare items as well as important collateral works, offer opportunities for research to the undergraduate student

and the advanced scholar. The College is fortunate in having distinguished collections in English poetry, Italian literature, Medieval European literature, and on the Far East. Except for the rare volumes in these and other special collections, books are kept on open shelves to which the student has immediate access.

A broad program of extracurricular activities, made possible by the size and residential character of the College, supplements the liberal arts curriculum. From them the student may choose those which will contribute most to her enjoyment and growth. She may attend lectures by visiting scholars and public figures, readings by poets, music concerts, and art, book, and scientific exhibits. Through participation in various organizations she may test and develop interests in such areas as music, theatre, dance, sports, journalism, social service, political and civic activity. Whatever her special interest, she finds opportunity to associate informally, to work cooperatively with others, and to maintain through sound habits of physical exercise the health which effective study requires.

Some student groups, such as choir and theatre, have professional direction; most of them are organized and conducted entirely by students. Two of them, the Chapel Organization and the College Government Association, are sponsored jointly by students and faculty. The Chapel Organization conducts student-sponsored religious activities, coordinates denominational and interfaith programs, and supports the chapel services sponsored by the College. Since its founding Wellesley has been a Christian institution without denominational affiliation; it offers daily services led by members of the community and Sunday services led by well-known ministers, at all of which attendance is voluntary. The College Government Association, to which all students belong, has executive, legislative, and judicial branches with elected student and faculty representatives, in each of which student representatives form the majority. This Association supports the methods and spirit of responsible democracy; it charters all extracurricular organizations, establishes committees such as the Student Education Committee, and acts on various social and residential regulations. Outside of the College, enriching cultural and social opportunities exist in the Greater Boston area which can be reached during the day in about one hour by public transportation.

The present college is in marked contrast to the small faculty and student body, the one building, the collection of eight thousand books, and the restricted social life with which Wellesley started. Yet the serene beauty of the campus remains unchanged, and the student now as always finds opportunity and is encouraged to develop her standards of ethics and taste, of personal and civic responsibility, and her intellectual and creative gifts.

## THE CURRICULUM

The curriculum provides a framework within which each student is invited to construct a program of studies, suited to her individual interests, which will enable her to achieve a sound liberal education. The ordered progression of studies and varieties in methods of learning are designed to help her build on her earlier studies in school without repetition and to develop mature intellectual independence during her four years in college.

By the time she receives the Bachelor of Arts degree she is expected to have demonstrated that she can use English, both in speaking and writing, in a clear, orderly, precise way, and that she can use at least one foreign language; that she has some acquaintance with the major strands of her intellectual and moral heritage, stemming from the Biblical and the Greek tradition and expressed in the history and in the great works of literature, art, music, and philosophy of the West; that she has some acquaintance with the objective study of human behavior and social institutions, and some understanding of the relationships among men in economic and political contexts; and that she has some understanding of the natural world in which she lives, of ways in which knowledge of the physical and biological environment is gained, and of the conceptual structures through which it is expressed. She will also have shown herself capable of learning not only through the small and informal classes which make up most of the curriculum but through two of the large extradepartmental lecture courses, and will have tested her interest in and readiness for independent learning in her area of concentration. Finally, she will have demonstrated that she has achieved some learning in depth by having taken a structured, sequential program in a discipline or related set of disciplines, and by passing at the end of her senior year an examination in her major.

### REQUIREMENTS FOR THE DEGREE OF BACHELOR OF ARTS

Each candidate for the degree of Bachelor of Arts is required to complete 40 units of academic work. The normal period of time in which to earn the degree is four years and a normal program of

study consists of ten units each year, four in Term I, four in Term II, and two in Term III.

### REQUIRED STUDIES

Unless exempted, each student elects:

English 100 (freshman year) 1 unit

Biblical History 104 (sophomore year) 2 units

Two units from courses in literature, either in English literature\* or in literature courses in a foreign language.\*

Two units from courses in art, music, and a literature other than the one chosen to meet the previous requirement.

Two units from courses in history or philosophy\*, either one in each or two in the same department.

Three units from courses in economics, political science\*, psychology, and sociology and anthropology\*. Two units are to be in the same department, the third in a different department.

Four units from courses in astronomy, biology, chemistry, geology, mathematics, physics, and the history of science. Two units are to be in one discipline, and two in one or in two other disciplines.

Two units, and not more than two, from special lecture courses (see Extradepartmental Courses and Programs), one of which is primarily for freshmen, and others primarily for upperclassmen.

In addition each student elects Physical Education 121 (freshman year) and Physical Education 122 (sophomore year). No academic credit is given.

Each student must show before the beginning of her senior year that she has some proficiency in the use of at least one foreign language, ancient or modern. This requirement may be met by passing one of the language tests of the College Entrance Examination Board, either the Achievement Test at a score of at least 610, or the Advanced Placement Examination at a score of at least 3, or by the completion at Wellesley of two units of language study at the second-year college level or higher. It may not be met by summer school courses.

Except for English 100 and Biblical History 104, required studies

\* The "Directions for Election" of the department should be consulted, since some courses do not count in fulfilling the requirement.

may be taken at any time in the four years. Students are urged to explore various areas in the first two years with a view to finding the one in which they wish to major. In their exploration they will elect courses which serve to meet some of the requirements. The remaining requirements may be met in the last two years with courses which will either complement the work chosen for the area of concentration or provide a useful contrast to it.

#### AREA OF CONCENTRATION

During the freshman year all students will give thought to the choice of their major subjects and some may reach a final decision. In the second term of the sophomore year each student elects a major subject and related courses and prepares for the Recorder a statement of the courses to be included in the area of concentration. If she wishes to make revisions later, her final plan for the area of concentration, after being approved by the chairman of the major department, should be presented to the Recorder not later than Term II of the junior year.

Some students wish to center their study upon an area, a period, or a subject which cuts across the lines of departmental organization. This can be done by meeting the minimum requirements for a major in one department, by careful selection of free electives, of courses related to the major, and of courses chosen to meet the general degree requirements. A student who is interested in a program of this kind should consult her class dean and the chairmen of the appropriate departments as soon as possible in her college course. Among the numerous possibilities for such study are programs centering on Asia, Russia, Latin America, the United States; the Middle Ages, the Renaissance; International Relations, Molecular Biology, Theatre Studies.

A minimum of 15 units is to be elected in the area of concentration. Of these one unit of independent study (290) is normally elected in Term III of the junior year, and one unit, designated 340, which is used for concentrated preparation for the Senior Major Examination, is elected in Term III of the senior year. At least 8 other units are to be elected in the major department, and at least 3 in related courses in other departments.

Courses are classified in grades I, II, and III, grade I indicating elementary courses and grade III the most advanced courses. Of

the 15 units in the area of concentration at least 6 must be above grade I and at least 4 in addition to 340 must be grade III. At least 2 units of grade III in addition to 340 must be taken in the senior year.

English 100 may not be counted in the English major or for related work in any department. Course 100 in modern foreign languages need not be counted as part of the minimum required for the major and may not be counted as related work unless two additional units in the language are taken.

At the end of the senior year each candidate for the Bachelor of Arts degree must pass an examination in the major subject, unless as a candidate for honors she is asked to pass special examinations in place of the Senior Major Examination.

#### FURTHER REQUIREMENTS

*Standard of Written and Spoken English.* Students are expected to use good English in their written work in all departments. A student in any class who fails to maintain acceptable standards may be referred to the Department of English for remedial work. Students are also expected to maintain good standards of spoken English. For any student who has a genuine disability, remedial work in speech can be arranged.

Within the 40 units required for the degree the student is permitted to elect:

1. A maximum of 14 units in any one department (in addition to 290 and 340).
2. A maximum of two beginning courses in modern foreign languages.
3. A maximum of 4 units in studio art if balanced by the required amount of work in the history of art. (See department statement.)
4. A maximum of 6 units in education. Education 303 may not be counted within the 40 units required for the Bachelor of Arts degree.
5. A maximum of 6 units in Theatre Studies.

The program of the senior year may not include more units of grade I than of grade III work.

To be recommended for the degree of Bachelor of Arts, a student must complete 40 units of academic work at a C average or

better and must receive passing grades in 290 and in the Senior Major Examination or in the special examinations for honors in the major subject. She must have resided in the College for at least two years unless she has had permission to commute from her parents' home, and she must have completed satisfactorily two years of study at Wellesley College, one of which must be the senior year unless as a married senior she has special permission to spend the senior year at one of five specified colleges.

#### EXEMPTION FROM REQUIRED STUDIES; ADVANCED PLACEMENT

A student may be exempted from any of the studies required for the degree, provided she can demonstrate to the department concerned, or in the case of extradepartmental courses to those in charge of the courses, that she has reasonable competence in the materials of the course.

Students who have taken the Advanced Placement Tests of the College Entrance Examination Board and achieved a score of 4 (Honors) or 5 (High Honors) are eligible for exemption. Other students who believe themselves qualified may apply through the class dean for an exemption examination. Permission to take the examination rests with the class dean and the chairman of the department concerned. (See Special Examinations below.) In addition to the evidence offered by the examination some departments may require the student to present a paper or an acceptable laboratory notebook.

Exemption, when granted, will permit the election of advanced courses.

Students are urged to enter the most advanced courses for which they are prepared by previous study.

#### CREDIT OUTSIDE THE REGULAR COURSE PROGRAM

Students who enter under the Advanced Placement Program of the College Entrance Examination Board and who have received scores of 4 or 5 may apply for college credit in all subjects. An eligible student who requests two units of credit will be awarded them provided she does not register in college for courses which cover substantially the same material as that in which she receives credit. Further credits for each other course will be awarded after

she has completed a course in the subject at Wellesley College at an appropriate level and has earned a grade of C or better. There is no limit to the number of units which the student may earn through the Advanced Placement Program, though not more than two will be credited in any one subject.

It is also possible for students to earn one or two units of credit towards the degree by independent study in the summer, tested and evaluated by a Wellesley department. Those wishing to undertake such independent study for credit should consult the appropriate department and the class dean.

### COURSE AND SPECIAL EXAMINATIONS

An examination period occurs at the end of each term. Examinations for the removal of conditions and deficiencies may be taken during the examination periods at the end of Terms I and II and at other specified times.

Special examinations are offered in September to qualified students to earn credit for work done independently, for admission to advanced courses without the stated prerequisites, and for exemption from required studies.

Students who wish credit towards the degree for work done independently in the summer or for more than two units of summer school work should consult the appropriate department and the class dean, and should apply to the Recorder at least a month in advance for a special examination given at the beginning of the college year. The fee for a special examination for credit is stated on p. 147.

### RESEARCH OR INDIVIDUAL STUDY

In addition to the unit of independent work taken by every student in her area of concentration, each department of the College which offers a major course of study provides the opportunity for certain students to undertake a program of individual study directed by a member of the faculty. Under this program an eligible student may undertake a research project or a program of reading in a particular field. The results of her work normally will be presented in a thesis or in a series of short essays. The conditions for admission to this work in each department are described under the

course designated 350. Further opportunities for research and individual study are described under the Honors program.

### ACADEMIC DISTINCTIONS AND HONORS

#### THE BACHELOR OF ARTS DEGREE WITH DISTINCTION IN THE MAJOR SUBJECT

Students who have shown marked excellence and an unusual degree of independence in their work in the major and in the Senior Major Examination may receive the Bachelor of Arts degree with Distinction in the Major Subject. To be recommended the student must also maintain a good general average in all her academic work.

#### THE BACHELOR OF ARTS DEGREE WITH HONORS IN THE MAJOR SUBJECT

The honors program is open to students with a strong academic record who wish to undertake two or four units of independent work in their senior year. Each candidate for honors completes an individually chosen research project, supervised by a member of the faculty and entered on her record as 370, Honors Research (2 units). In some departments she also completes two additional units of independent study, designated as 365, in areas or subjects related to her central project. Honors candidates are eligible in their junior year for honors seminars given in Term III. The successful completion of the independent work and of the honors examinations leads to the award of Honors or High Honors in the Major Subject.

#### OTHER ACADEMIC DISTINCTIONS

Excellence in academic work is recognized by honorary titles which are open to all students and are awarded without reference to financial need.

The College names as Pendleton Scholars certain entering freshmen who submit outstanding credentials for admission. It confers Freshman Honors on the students who maintain high academic standing during the freshman year and names in convocation the juniors and seniors whose records after the freshman year are at the level of Wellesley College Scholars and Durant Scholars. Final honors, conferred at Commencement, are based on academic records

after the freshman year and include the title Wellesley College Scholar for high academic standing and Durant Scholar for the highest academic standing.

Juniors and seniors are elected to membership in the Eta of Massachusetts Chapter of Phi Beta Kappa on the basis of their total academic achievement in college, and seniors who are majoring in the sciences may be elected to associate membership in the Wellesley Chapter of Sigma Xi, national honorary scientific society.

On recommendation of the faculty the Trustees award to four seniors who intend to pursue graduate studies the title of Trustee Scholar. The awards are made on a competitive basis in two categories: two for graduate study without restriction as to subject; two for graduate study undertaken as preparation for college teaching. The title is honorary; in cases of financial need stipends are awarded to the Scholars or, if not required by them, to alternates who need financial assistance. Applications and supporting credentials are due in the President's Office by January 15.

Certain prizes have been established at the College for the recognition of merit in a particular field. They carry a small stipend or gift and usually bear the name of the donor or the person honored.

#### REQUIREMENTS FOR THE DEGREE OF MASTER OF ARTS

A candidate for the degree of Master of Arts is required to complete 8 units of graduate work, which ordinarily includes a thesis embodying the results of original research. The program is arranged by the student's major department and is subject to the approval of the Committee on Graduate Instruction. A reading knowledge of French or German, to be tested by examination *at entrance*, is required. Individual departments may require a second language. At least one year in residence is required of all candidates.

Some departments, but not all, accept candidates for the Master of Arts degree. The College does not maintain a program of courses for graduate students separate from those offered for undergraduates. Properly qualified graduate students are admitted to grade III courses, to seminars, and to course 350, Research or Individual Study.

Information regarding admission, living arrangements, graduate assistantships and scholarships will be found in the bulletin, *Graduate Study at Wellesley College*, which will be sent upon application to the Secretary of the Committee on Graduate Instruction.

# SPECIAL PROGRAMS AND PREPARATION FOR CAREERS

## SPECIAL PROGRAMS

### USE OF THE SUMMER VACATION

Students are encouraged to make constructive use of the long summer vacation, supplementing through it the work and activities of the academic year. Several possibilities are recognized, for example, field or laboratory work at the College or elsewhere, travel, vocational experience, and serious and ordered reading. Regardless of their specific activities, all students are expected to undertake some serious reading each summer. To assist them, each of the departments makes available a reading list designed to enrich the student's knowledge of her major subject.

The College joins with Vassar College in sponsoring a Summer Internship in Government that enables students from various departments to learn at first hand of the operations of the Federal Government. Students who are accepted for the program spend six weeks in Washington during the summer preceding their senior year. A director arranges assignments in various government bureaus, Congressional offices, and headquarters of the Democratic and Republican National Committees, and meets regularly with the interns during the six weeks.

The College participates in the Internship Program in Economics, sponsored by the National Association of Business Economists. Economics majors who meet the high standards set for candidates in this program may be placed in salaried positions in private or public agencies in all parts of the country during the summer following the junior year, to carry out applied economic research under the direction of senior economists.

### THE JUNIOR YEAR ABROAD

Qualified students may apply for admission to the various groups spending the junior year in Europe. Wellesley students may study in Paris under the plan sponsored by Sweet Briar College, or in Munich under the auspices of Wayne University, or in Florence, Geneva, Madrid, or Paris with groups organized by Smith College. A student who wishes to join one of these groups must have

a good academic record and competence in the language of the country in which she plans to study; in general two years of study of the language at the college level are necessary to provide adequate preparation. In advance of making application, a student must have the approval of the chairman of her major department and of her class dean.

#### PREPARATION FOR CAREERS

For information about graduate fellowships see pp. 136-137.

#### COLLEGE TEACHING AND RESEARCH

A student who wishes to enter college teaching and research will find that the undergraduate work of the College provides preparation for graduate study leading to advanced degrees in the arts and sciences. She should consult as early as possible the chairman of her major department, or of the department in which she hopes to pursue graduate study, to learn which courses in her field of special interest and which foreign languages will be most useful to her. It should be noted that for graduate study in many fields a reading knowledge of two specified languages is required. The student will find her class dean, her faculty adviser, the chairmen of departments, and the Placement Office helpful in locating information about graduate schools.

#### PREPARATION FOR SECONDARY SCHOOL TEACHING

Some teaching positions in public as well as in private schools are open to college graduates without further study. Students who complete the course in supervised teaching and three other units of study in education and two in psychology are able to fulfill the minimum requirements for a teaching license in many states.

Wellesley is one of a group of colleges affiliated with the Harvard Graduate School of Education in a program which affords graduates of the cooperating colleges special opportunities for practice teaching in the summer, for paid teaching internships during the regular school year, and for graduate study at Harvard.

A student who intends to teach should consult the chairman of the Department of Education as soon as possible about requirements for certification and ways of preparing to meet them.

### MEDICAL SCHOOL

In general, the minimum requirements for admission to recognized medical schools can be met by four units in chemistry, two units in physics, and two units in biology. Because there is some variation in the minimum requirements, a student should consult the most recent catalogues of the particular medical schools in which she is interested.

Many students planning to study medicine elect two pre-medical sciences in the freshman year and major in one of them. Many medical schools stress the importance of a liberal education as a preparation for medical studies and accept applicants regardless of their major provided they have fulfilled the minimum requirements for admission. A student, therefore, is advised to major in the field of her greatest interest. Students wishing to prepare for medical school should consult Professor Louise P. Wilson, Department of Biological Sciences.

### THE CIVIL SERVICE

A student wishing to qualify for examinations offered by the United States Civil Service Commission or various state and local civil service agencies should consult her major department and the Placement Office about current requirements. For many positions some work in statistics and public administration is desirable; graduate study is a qualification for many of the more important posts.

### OTHER PROFESSIONS

In her undergraduate work a student may meet the requirements for the degree of Bachelor of Arts and at the same time prepare to enter professional schools, for example, architecture, law, medicine, social service administration, teaching. A sound education in the liberal arts is considered the best preparation for admission to most professional schools, but a student who is interested in any one of the professions should consult her class dean to discuss the particular emphasis which she should make in her undergraduate program. She should also consult as soon as possible the catalogue of the graduate school which she has chosen.

## DEPARTMENTAL COURSES OF INSTRUCTION

1966-1967

The following courses of instruction are offered by the several departments. The College reserves the right to withdraw any course not chosen by at least six students.

All courses are classified in grades I, II, III; grade I indicates elementary courses and grade III the most advanced courses. Grade I courses are numbered 100, etc.; grade II courses 200, etc.; grade III courses 300, etc.

The first term is indicated by (1) following the course number, the second term by (2), the third term by (3). The number of units of credit appears in parentheses following the course title. A term course which carries one unit of credit requires approximately eleven hours of work each week spent partly in class and partly in preparation. The amount of time scheduled for classes varies with the subject from two periods each week in many courses in the humanities and social sciences to three, four, or five scheduled periods in certain courses in foreign languages, in art and music, and in the sciences. Classes are scheduled from Monday morning through late Friday afternoon; examinations may be scheduled from Monday morning through late Saturday afternoon.

#### DIRECTIONS FOR ELECTION

A major in art must include 100 (unless an exemption examination is passed) and at least 6 further units in the history of art, chosen to make adequate distribution in the different arts and different periods.

A reading knowledge of French, German, or Italian, though not required, is strongly recommended.

By careful choice of related courses, a student majoring in art may plan a field of concentration emphasizing one century or period such as Ancient, Medieval, Renaissance, or Modern. Students interested in such a plan should consult the chairman of the department as early as possible.

The attention of students is called to the extradepartmental program in classical archaeology.

## DIRECTIONS FOR ELECTION

Certification for secondary school teaching upon graduation is possible only for students who complete 302 and 303. Massachusetts requires at least two additional units in education and at least one unit of grade II psychology. Most other states require at least three additional units in education and one of grade II psychology. The recommended program is:

Freshman year:	Psychology 101
Sophomore year:	Education 200 and Psychology 212 or 219
Junior year:	Education 300, and 201 or 301
Senior year:	Education 302 and 303.

Education 303 is essential for certification, but may not be counted within the 40 units required for the Bachelor of Arts degree. Students who do not have extra units from earlier work should plan to take in summer school a 1-unit course in any discipline which may be credited towards the Wellesley degree.

Although the College does not offer a major in education students may take up to 6 units. Students who intend to teach should (in their freshman year if possible) consult the department concerning the various city and state requirements for the certificate to teach and the appropriate undergraduate preparation for fifth year and paid intern programs which combine professional study with further study in teaching fields and lead to Master's degrees honored by all states. (See also p. 36.)

#### DIRECTIONS FOR ELECTION

The above courses with the exception of 312 and the writing workshops may be elected to fulfill the college requirement in literature.

Although 100 counts for the degree it does not count toward a major in English and is not included within the maximum number of units (14) permitted in one department.

For students interested in writing, a sequence of practice courses is provided, but no two writing courses may be taken simultaneously. Enrollment in writing workshops is, in general, limited to fifteen.

A student majoring in English is required to take 106, 217 or 220, 309, and 2 additional units in literature before the modern period. Under special circumstances 102 in combination with one term of 106 may be offered in fulfillment of the 106 requirement. With the permission of the chairman, capable students taking 106 in Term III may, by doing special summer reading and passing an examination, omit the second half of 106 and proceed with grade II work in the following September. To receive a unit of credit for the second half of 106 additional work will be required. The department chairman should be consulted. (See also the statement on fees, p. 147.)

Students wishing to design a major focusing on drama are referred to the statement under Theatre Studies in the Extradepartmental section.

Students of at least B standing in the work of the department will have first consideration in applying for admission to seminars and 350 work.

Knowledge of English and American history, of the course of European thought, and of at least one foreign literature at an advanced level is of great value to the student of English. See for example, History 213, 217, 310; Philosophy 203, 207, 208, 209; grade II and grade III courses in foreign literatures; see also Greek 104; Extradepartmental 108, 201, 202.

Major students are urged to distribute their work so that they will have some acquaintance with more than one era of civilization and some knowledge of the development of historical thought. A major may be unspecialized or it may emphasize a period (*e.g.*, ancient, medieval), an area (*e.g.*, Western Europe, the Far East), a special aspect of history (*e.g.*, diplomatic, intellectual), or a single country. A student wishing to design a major in history focusing on Russia should consult the statement under the Department of Russian and the chairman of the Department of History.

Course 218 counts as related work but not as part of the major.

Seminars are open by permission to qualified juniors and seniors who have taken 4 units in history. In some cases appropriate advanced work in related departments may be substituted for part of the prerequisite in history. Since enrollments in seminars are limited, a student wishing to apply for admission to one should fill out an application blank obtainable at the department office.

Instruction is provided in piano, organ, violin, violoncello, and voice, and arrangements may be made for private instruction in other instruments. Although no academic credit is given for such study, the department strongly recommends it as a complement to the course work in music. Advanced students of string instruments or piano are eligible without additional charge for group instruction in the performance of chamber music.

Students may take performing music provided they take or have already taken a college course in the theory of music. Performing music is an elective, and students wishing to take it should notify the department in accordance with the procedure required for the election of an academic course.

Instruction in performing music is available to graduates of Wellesley College and to residents of the Town of Wellesley by special arrangement.

Performing music study is normally undertaken on a yearly basis, although with the permission of the chairman of the department it may be elected for a single term only. Students whose work proves unsatisfactory may be required to discontinue their lessons.

The College subscribes for eight seats in the Saturday evening series of the Boston Symphony Orchestra. Tickets for these concerts are available at cost and students taking music courses are given preference in the use of them.

## DIRECTIONS FOR ELECTION

Students wishing to major in music should consult with the chairman of the department, who will advise them in planning their work both in the major and in such related fields as European history, literature, and art. Those who propose after graduation to continue into musicology

\*\* Students who elect performing music instruction are charged at the rate of \$150 for a half-hour lesson per week throughout the year. ## ADMISSION

Students who wish to apply for admission to Wellesley College as undergraduates should write to the Director of Admission. She is always glad to answer inquiries from students, their parents, or their schools about admission requirements and the procedures for applying.

The Board of Admission consists of eight representatives of the faculty and officers and is chaired by the Director of Admission; it acts with final authority in determining which candidates will be admitted. Among the many applicants of good intellectual ability and character, it seeks each year to admit a class whose members are eager to learn and who together provide a stimulating diversity of backgrounds and special interests.

Each candidate is required to have a personal interview either at the College or in her home or school region. Upon request from the candidate, the Director of Admission will forward the name and address of the alumna interviewer in her area.

It should be noted that many types of illness and disability are not insurmountable handicaps at Wellesley College, but the College cannot encourage the entrance of students who find walking very difficult, nor can it supply special diets except during temporary illnesses.

### ADMISSION OF FRESHMEN

#### ENTRANCE REQUIREMENTS

Entering students normally have completed four years of college preparatory studies in secondary school. Good preparation for work at Wellesley College includes four years of English, a minimum of three years of mathematics (four years are recommended for students planning to concentrate in mathematics, pre-medicine, or physical science), one or more courses in a laboratory science and in history, and courses in either Latin or Greek and in a modern foreign language. If a student is not able to study one language for at least three years and another for at least two years, she is advised to study one language, ancient or modern, for four years.

The Board of Admission is glad to consider applications from able, serious students whose schools do not offer all the courses recommended above.

#### APPLICATION FOR ADMISSION

Application forms may be secured from the Director of Admission. A fee of \$15.00 must accompany the formal application. This fee is not refunded if a candidate withdraws her application or is not admitted.

#### ADMISSION PLANS

##### 1. *Early Decision:*

This plan is intended for the student with a very good record who decides early that Wellesley is the college which she wishes to attend and who agrees to file no other college application until after receiving the decision of the Board of Admission on her single application. She must have taken the appropriate College Board examinations in her junior year in school and must apply and complete a form entitled "Request for Early Decision" by October 1 of her last year in school. A letter informing her of the Board's decision will be mailed by December 1.

##### 2. *April Decision:*

A candidate who uses the regular plan of admission must file an application by January 1 of her last year in school. A letter informing her of the Board's decision will be mailed in April.

##### *N.B. Early Admission:*

A very few unusually mature students whose achievement in secondary school is superior are considered for admission after only three years of high school. These candidates are required to have an interview at the College. In all other respects they follow the regular procedures for entrance.

#### ENTRANCE PROCEDURES

The Scholastic Aptitude Test and three Achievement Tests of the College Entrance Examination Board are required of all applicants

for admission. Among the Achievement Tests, the English Composition Test is required and two other tests chosen from two of the following fields: 1) foreign languages 2) social studies 3) either mathematics or science.

Each applicant is responsible for arranging to take the tests and for requesting the College Entrance Examination Board to send to Wellesley College the results of all tests taken. The Board sends its publications and the necessary registration forms to apply for the tests to all American secondary schools. The applicant may obtain the registration form at her school, or may obtain it by writing directly to the College Entrance Examination Board at Box 592, Princeton, New Jersey 08540; or, if she lives in a western state, western Canada, Australia, Mexico, or the Pacific Islands, at Box 1025, Berkeley, California 94701.

#### TIMING OF THE EXAMINATIONS

##### *1. Early Decision Plan:*

A candidate for admission under the Early Decision Plan should take the Scholastic Aptitude Test in March or May of her junior year and the Achievement Tests in May of her junior year or in the July following her junior year.

##### *2. April Decision:*

The Scholastic Aptitude Test should be taken in December or January of the senior year. The Achievement Tests may be divided between May of the junior year and December or January of the senior year. Tests taken in March of the senior year are not suitable since the results will be received too late to be considered for an April decision.

Note: Applications and fees should reach the College Board Office approximately seven to eight weeks before the dates of the tests specified below.

##### Dates of Tests:

December 3, 1966

January 14, 1967

March 4, 1967

May 6, 1967

July 8, 1967

## ADVANCED PLACEMENT AND CREDIT

Applicants for admission who are studying under the Advanced Placement Program of the College Board or who are working beyond the usual secondary school level independently or in some other program will wish to read carefully pages 30-31 of this catalogue. It gives information about placement in advanced courses in the freshman year, exemption from required studies, and credits toward the bachelor's degree which may be earned prior to admission. An entering freshman who is interested in advanced placement or exemption should explain this in writing to her class dean during the summer. If she is considering acceleration and early graduation, she should consult her dean during the first term of her freshman year.

## STUDENTS FROM ABROAD

American citizens residing abroad and foreign citizens residing in the United States who wish to apply to Wellesley College should follow the procedures and time-schedules described above.

A student interested in attending Wellesley College who is both a citizen and a resident of a foreign country should apply well before January 1 of the year in which she plans to enter college and should address all inquiries concerning admission and financial aid to the Director of Admission. She is encouraged to obtain the preliminary application forms supplied by the Institute of International Education in her own country or may write directly to the Director of Admission, Wellesley College, giving her reasons for wishing to attend and a detailed statement of her previous educational experience. She should make arrangements to take the College Board Examinations no later than January of the year of proposed admission. These examinations should include the Scholastic Aptitude Test, the Writing Sample, an Achievement Test in English Composition, and another subject other than the student's native language.

## ADMISSION OF TRANSFER STUDENTS

Wellesley College accepts a limited number of sophomore and junior transfer students who offer excellent academic records and strong recommendations from their dean and instructors. A student wishing to apply for admission with advanced standing should make application before February 1 on forms which may be obtained from

the Director of Admission. A non-refundable application fee of \$15 should be sent with the completed application form.

Credit for courses completed at another college is tentatively granted early in the first year of residence at Wellesley. The final determination of credit which depends upon the quality of the student's work at Wellesley College is not made until the end of her first year here. It should be noted that financial aid funds are not budgeted for transfer students in their first year at Wellesley.

#### READMISSION

A student who has withdrawn from college and wishes to return should apply to the Office of the Deans for the appropriate forms. Readmission will be considered in the light of the reasons for withdrawal and reapplication, and of the space currently available. A non-refundable fee of \$15.00 must accompany the reapplication form.

#### ADMISSION OF GRADUATE STUDENTS

Wellesley College accepts a limited number of candidates for the degree of Master of Arts. A summary of requirements for the master's degree appears on page 33. Interested students should write to the Chairman of the Committee on Graduate Instruction.

## FINANCIAL AID

Wellesley College's program of financial aid for students is intended to open educational opportunity at the College to serious and worthy students without regard to their financial circumstances and to have the college community enriched by a student body representative of various economic and geographic groups. Currently about \$500,000 from college sources and another \$100,000 from the Wellesley Students' Aid Society are awarded annually in the form of gifts, loans, and work guarantees. This makes possible assisting approximately one hundred students in each class to meet the cost of the inclusive fee. The Students' Aid Society also offers personal assistance through loans of books and other items, gifts of clothing, and loans of small amounts of money for incidental expenses and special emergencies.

Financial aid is given only to students who require assistance in order to attend. Awards vary in size according to individual need and may amount to the full fee. Although they are given only for one year at a time, the College expects to renew them as needed throughout the four years for all holders whose records as students and as citizens of the college community are considered satisfactory by the Wellesley College Committee on Scholarships. Awards to freshmen are normally a combination of gift and interest-free loan. Awards to upperclassmen ordinarily also include a guarantee of term-time work on the campus.

Ten special scholarships are available for residents of the Town of Wellesley who meet the standards of admission and thereafter maintain diploma grade standing.

### APPLICATION FOR FINANCIAL AID

Each registered applicant for admission who desires financial aid must secure two forms not earlier than her last year in school and must file them in the places indicated below by October 15 of her senior year for Early Decision applicants, by January 15 for April Decision applicants.

1. *Wellesley College Application for Financial Aid.* This form should be requested of and returned to the Financial Aid Officer, Wellesley College.

2. *Parents' Confidential Statement.* This form is available in the secondary schools, or may be obtained by writing to the College Scholarship Service, Box 176, Princeton, New Jersey 08540 or Box 1025, Berkeley, California 94701. A copy can also be provided by the Financial Aid Officer if specifically requested by an applicant. The *Parents' Confidential Statement* should be filed with the College Scholarship Service. The Service will then forward a copy for confidential use to the college or colleges indicated on the form.

Candidates for admission who have sufficient funds for the first year but who foresee a need for assistance for the later years should inform the Financial Aid Officer by January 15 of their senior year in school. The College endeavors to reserve funds to meet the needs of qualified students who do not require aid on entrance but who anticipate financial problems during the later college years.

Applications for aid from students in college should be filed with the Financial Aid Officer on forms obtained at the College in accordance with instructions posted annually.

Wellesley College also administers low-interest-bearing loans made available under the National Defense Student Loan Program. Students with financial need who are not granted college awards by the College Committee on Scholarships may obtain application forms for National Defense Loans from the Financial Aid Officer.

## GRADUATE FELLOWSHIPS

Wellesley College administers several graduate fellowships for use in any institution, some of them open to alumnae of any college, some of them limited to graduating seniors and alumnae of Wellesley. Application forms for graduate fellowships may be secured in the President's Office or by writing to the Secretary of the Committee on Graduate Fellowships. Entering students come into residence two days before most upperclassmen. During this period they meet their class dean, other officers of the College, and some upperclassmen who answer their questions and help them to become acquainted with the activities and traditions of the College. They visit the library, take appropriate placement tests, and have opportunity to consult their deans should changes in their programs of study seem advisable. Special events of various types are scheduled for entering students during their first week at Wellesley.

### ADVISING OF STUDENTS

Class deans are members of the faculty who are relieved of some teaching duties in order to act as advisers of students. They are ready to discuss informally with individual members of their classes any academic or personal concern which the student may have or, if more specialized help is desired, to direct the student to the person at the College who is best qualified to encourage her particular interest or meet her special need. In addition, they cooperate with faculty committees, heads of house, doctors, and student leaders in efforts to establish sound general policies. Usually each class has one dean for the first two years and another dean for the last two years.

### ACADEMIC STANDARDS

Each student is given full responsibility for her attendance at classes and for the timely preparation of her work. In case of illness or other difficulty she should consult her dean for assistance in making special arrangements for her studies.

The student is expected to prepare all her work with integrity and to abide scrupulously by the regulations of the faculty concern-

ing academic work. The College attaches major importance to this. A student who finds herself in doubt as to a proper method or course of action should consult her instructor or dean immediately.

At the end of each term the academic record of each student is reviewed, including her grades, evidence of serious interest in her work, and potential for further achievement. A student may be excluded from the College if she has given little evidence of interest or growth in her work or if it is below diploma grade standing. If the record, although not satisfactory, shows promise, the student is warned and efforts are made to help her improve it. A student who makes consistent effort rarely has to be excluded. Ordinarily no student may enter the senior year who is below diploma grade standing or has failed to complete the foreign language requirement.

## RESIDENTIAL LIFE

### RESIDENCE HALLS

Wellesley College maintains thirteen large residence halls, each of which has its own living rooms and dining room. Students in proportionate numbers from all four classes live in each hall. A Resident Head of House who is interested in the welfare of each student works with the students in her hall to create an environment which invites study and intellectual discussion as well as relaxation and entertainment of friends.

Rooms are assigned to entering students by the Director of Residence with a view to maintaining among the freshmen in each hall representative diversity in background and interests. Regulations for moving from one hall to another at the end of each year vary from time to time but are always based on general policies equally applicable to all students. Only juniors are assured in advance that if they wish they may continue in the same residence hall for the following year.

Rooms are equipped with essential furniture. Students are expected to furnish blankets and couch covers, and to furnish bed linen and towels or rent them from a supply company designated by the College. A list of permissible additions is sent to each entering student. It should be noted that the College accepts no responsibility

for the safety of personal possessions of the student. She may leave her possessions at her own risk in her room or in designated storage areas. Valuable items should be left at home or should be insured.

The College reserves the right to inspect any room at any time and to dispose of articles remaining unclaimed after due notice or after a student has left college, either by withdrawal or graduation. Residence halls are closed during Christmas and spring vacations. One hall is kept open on a per diem basis if enough students wish to remain. A Resident Head is in charge of the vacation house.

#### RULES OF RESIDENCE

Residence in college halls is required of all undergraduate students except those who commute from their parents' homes near the College and the married juniors or seniors who have permission to commute from their own homes. Once admitted to the College, a student may expect continuing opportunity to live in the college residence halls so long as her academic progress is considered satisfactory and she upholds high standards of civic and personal morality as well as the specific rules of residence which are stated in the College Government Handbook. She is expected to keep her room clean and to contribute two to three hours a week to light housework which is scheduled by student Heads of Work. Resident freshmen have a limited number of overnight absences; other students, given parental permission, have no limitation on absences. Only in the last term of the senior year may resident students have cars.

Married students are not allowed in the freshman or sophomore classes. A student who plans to be married and wishes to continue her studies at the College may apply to the Dean of Students for permission to become a non-resident student, provided she will have lived in the College residence halls for at least two years prior to her marriage. Permission is given if the student has a satisfactory academic and civic record and her new home is to be within thirty miles of the College.

Ordinarily a married junior or senior may not live at the College, because the College believes that women should postpone marriage until they are ready and able to establish their own homes. In an exceptional case and if permission has been requested and received

from the Dean of Students at least one month before the marriage, a married junior or senior may live at the College. Except in special circumstances for which government loan funds may be available, financial aid is not given to married students.

### HEALTH SERVICES

The services of the college physicians, psychiatrists, and nurses are available to students without charge both in the clinic and in the twenty-nine bed hospital on the campus. When advisable, specialists in the Greater Boston area are within easy reach for consultation.

Each resident student is allowed annually six free days in the infirmary, only three of which may be taken at any one time, when prescribed by a college physician. Thereafter the charge is eighteen dollars per day. The expense of special service in the infirmary or of outside consultation or hospitalization must be met by the student. The College strongly recommends purchase of a group student health and accident insurance policy which protects the student over a twelve-month period whether or not in residence at the College. Details concerning this policy are sent to all parents.

Each new student is required to submit by August 15 of the year of entrance a detailed Health Examination Report on forms supplied by the college Health Service. Certifications of immunization against small pox and tetanus are required, as well as chest X-Ray and ophthalmologist's certificates. Immunizations against poliomyelitis, typhoid, and diphtheria are recommended. Failure to complete any portion of the requirements will necessitate a special examination on arrival, at the student's expense. The college physicians rely on these examinations and on a health conference scheduled at the opening of the college year for each new student with a college physician to determine the physical needs of each student and to make proper recommendations to the Department of Physical Education. The Health Report also makes possible cooperation with home physicians in continuing necessary treatment.

Cooperation with the college physician is a requirement of residence. A student in residence must notify a college physician before consulting a physician outside of the College or before leaving the

campus for reasons of health. If she needs medical attention when away from the campus, she should inform her class dean immediately upon her return and take to the infirmary a statement signed by the attending physician.

In case of serious illness parents are notified by telegram or telephone, but the College reserves the right to make decisions concerning operations and other health matters if parents cannot be reached at a time when decisions seem imperative.

#### WITHDRAWAL AND EXCLUSION

A student who plans to withdraw must inform her class dean. The Recorder will then provide a withdrawal blank for the student's parents or guardian to sign. The official date of withdrawal is the date on which the signed blank is returned to the Recorder. In the event of involuntary withdrawal the official date of withdrawal is the day on which the student leaves.

The College reserves the right to require the withdrawal at any time of a student whose academic work falls below its standards or who in the opinion of the college authorities should not remain at Wellesley. In the latter case no specific reason need be assigned.

#### EMPLOYMENT OPPORTUNITIES

The Placement Office assists without charge those students and alumnae who are interested in employment. It helps students to obtain summer positions and part-time work in the winter and helps seniors and alumnae to locate positions upon graduation and later in their careers.

The Office maintains a library of vocational literature on current positions and future career possibilities; holds lectures and discussions for students on various occupations; supplies information about training courses, apprenticeships, and graduate assistantships; and schedules interviews for seniors with the employers who recruit at the College.

Seniors and alumnae are invited to register in the Placement Office if they wish to hear of openings and wish to have their employment credentials collected and kept up to date in the years to come for the use of prospective employers.

During the academic year part-time employment is available, ex-

cept to freshmen during their first term who are expected not to undertake paid jobs until they are familiar with the academic demands on their time. Caring for children offers the largest number of work opportunities, various clerical and other jobs exist, and several exchanges and agencies on the campus provide regular work for a number of students and occasionally yield substantial returns. However, students are cautioned against depending on employment during the academic year for any considerable income. Summer positions are more varied and provide more remuneration.

## FEES AND EXPENSES

### THE ANNUAL FEE

The inclusive annual fee for tuition, board and room is \$2,800. This fee represents approximately three-fifths of the cost to the College for each resident student; the difference is made up from gifts and the income earned on endowment funds. The fee includes a reservation deposit of \$200 which constitutes an agreement to make the remaining payments on the dates due and reserves a place in the College for the student. In 1967-1968 the fee will be \$3100.

### THE GENERAL DEPOSIT

Each entering student is required to deposit \$50 which is refunded after graduation or withdrawal after deducting any special charges which were not previously paid. If the deposit is depleted at any time, replenishment will be required.

### PLANS OF PAYMENT FOR 1966-1967

The fee is due in full on September 1. After the Reservation Payment of \$200 is paid, and for entering students the General Deposit of \$50, a payment of \$2,600 will meet the financial obligation for one year.

Three plans for conveniently spaced payments are also available: the Standard Plan, the Alternate Plan, and a Deferred Monthly Payment Plan. A complete description of these plans is obtainable from the Controller and is routinely supplied to the parents of entering students.

All checks should be made payable to Wellesley College and sent to the Controller. All fees which are due must be paid before the student may begin or continue class attendance, and all financial obligations to the College must be discharged before the diploma is awarded.

Undergraduate students who wish information concerning non-resident fees should write to the Controller after establishing non-resident status with the Dean of Students. Graduate students should consult the bulletin on *Graduate Study at Wellesley College*.

## STANDARD PLAN

*First Payment*—New students admitted under the Early Decision Plan:

February 1	Reservation payment	\$ 200

 The total cost of this plan is \$2,824 aside from the \$50 General Deposit for students entering College. The service charge is \$24.

*Returning students:*

August 1	and on the first of each month for seven months, ending February 1	\$328

The total cost of \$2,824 includes a \$24 service charge.

#### DEFERRED MONTHLY PAYMENT PLAN

The College will accept payments made through any bank or trust company or recognized financing agency which will forward these payments in accordance with the Standard Plan.

Arrangements have been made through one such financing agency to offer a monthly or extended payment plan to cover payments due the College. This plan includes provisions for insurance and can be arranged for any reasonable sum of money or length of time. Information about the plan is sent to the parents of all entering students and is available to others upon request to the Controller, Wellesley College.

#### WITHDRAWAL

The reservation deposit is not refundable at any time. Additional payments made before the opening of College in the fall are refundable only prior to that time.

The necessity of meeting fixed charges prohibits withdrawal rebate in excess of \$17 for each remaining full academic week calculated from January 1 or the withdrawal date, whichever occurs later.

In the event of withdrawal of a student with scholarship assistance, the proceeds of all refunds will be applied first to the scholarship account.

## SPECIAL FEES AND EXPENSES

A fee of \$150 is charged for each unit taken for credit in excess of the normal academic program. A fee of \$50 is charged for validating in September each unit of work done independently during the summer or taken in other institutions in excess of the units accepted for automatic transfer. Exception is made only for the student who is replacing a unit dropped in an earlier term for health reasons and with the approval of the class dean or who is replacing a unit dropped for some other reason before the middle of a term and with the approval of the class dean.

Fees for instrumental and vocal lessons are stated under Music. Infirmary fees for care in excess of the free days allowed by the College are stated under Health Provisions.

A non-refundable application fee of \$15 is required of all applicants for admission or readmission. There are no other general college fees.

## THE BUILDINGS AND EQUIPMENT

All of the buildings described below are located on the campus, a five hundred acre tract of rolling meadow and woodland which borders on a natural lake one mile in length. The campus contains special plantings in the Hunnewell Arboretum and the Alexandra Botanic Gardens, experimental gardens for students of botany, the Hay Outdoor Theatre, and ample facilities for a wide range of land and water sports.

### ACADEMIC AND COMMUNITY BUILDINGS

**BILLINGS HALL**, erected in 1880 as a music college, was remodeled in 1962 to provide a center for student organizations.

**SIMPSON INFIRMARY** was the gift of M. H. Simpson in memory of his wife, who had been a trustee of the College. It was erected in 1881 as a residence hall, later became the infirmary, and now provides living quarters for members of the staff. In 1942 a new wing containing a 29-bed hospital and a clinic was erected and connected with the old infirmary.

**THE HOUGHTON MEMORIAL CHAPEL** was presented in 1899 by Miss Elizabeth G. Houghton and Clement S. Houghton as a memorial to their father, William S. Houghton, a trustee of the College. In it are stained glass windows commemorating the founder and several former members of the College, and a famous tablet by Daniel Chester French in memory of Alice Freeman Palmer, Wellesley's second president.

**THE WHITIN OBSERVATORY**, the gift of Mrs. John C. Whitin, a trustee of the College, was erected in 1900 and enlarged in 1962. It contains laboratories, darkrooms, and the library of the department of Astronomy. Its research equipment includes a six-inch, a twelve-inch, and a twenty-four inch telescope.

**MARY HEMENWAY HALL**, the gymnasium, was erected in 1909 when the Boston Normal School of Gymnastics affiliated with the College and Mrs. Mary Hemenway of Boston provided the funds for this building. Classes for indoor sports and modern dance are conducted here and in the Recreation Building. Outdoor sports center around the Boathouse which houses the canoes and crew shells, the Golf House on the nine-hole course, sixteen tennis courts, and the hockey and lacrosse fields.

THE LIBRARY BUILDING, erected in 1910 and enlarged in 1916, was the gift of Andrew Carnegie. In 1957 a wing which doubled its size and in 1958 a complete remodeling of the original building and the installation of a language laboratory were the gifts of alumnae and friends, especially of David M. Mahood and Mrs. Helen M. Petit in memory of Helen Ritchie Petit of the Class of 1928. The Library Building contains approximately 295,000 volumes which include a number of special collections, among them the English Poetry Collection created by George Herbert Palmer and added to by Katharine Lee Bates, Elizabeth Manwaring, and Sara Teasdale, the Browning Collection, the Plimpton Collection of Italian books and manuscripts, and the Elbert Collection on the Negro in slavery. Two other collections, the Laura Hibbard Loomis Collection of Medieval Literature and the collection on the Far East given by the Mayling Soong Foundation, while not housed separately, enrich the resources of the library. The Rare Book Collection contains manuscripts and a small collection of rare books and first editions which range in time from a copy of the Ratdolt Euclid printed in 1482 to the books issued by the contemporary Grabhorn Press. Another 80,000 volumes are located in the Art, Music, and Science departmental libraries.

THE ANNE L. PAGE MEMORIAL SCHOOL, for boys and girls of three, four, and five years of age, occupies two small buildings, the first of which was erected in 1913. There are one-way screens enabling students to observe the children effectively without themselves being seen.

FOUNDERS HALL, a classroom building for the humanities, social sciences, and mathematics, was erected in 1919. Dedicated as a memorial to Mr. and Mrs. Henry Fowle Durant, it was built from the Restoration Fund which trustees, faculty, alumnae and friends of the College secured after the College Hall fire.

ALUMNAE HALL, the gift of the alumnae, was built in 1923. It houses the largest auditorium on the campus, a ballroom, and "The Well," the campus snack bar.

SAGE HALL, is named in honor of Mrs. Russell Sage, its principal donor. The unit for botany and bacteriology was erected in 1927 and that for zoology and physiology in 1931. In 1956 the building was remodeled and enlarged to provide facilities also for geography and geology. It now contains the laboratories, lecture rooms, and offices of the departments of Biological Sciences, Geography, and

Geology, a library, a teaching museum, and display areas. Equipment for the research of students and faculty includes greenhouses with a range of climates from tropic to desert, a vivarium, an aquarium, and extensive map collections.

HETTY H. R. GREEN HALL, erected in 1931, was in large part the gift of Mrs. Green's son and daughter, Colonel Edward H. R. Green and Mrs. Matthew A. Wilks. It contains the administrative offices, the faculty assembly hall, class and seminar rooms, and an interdepartmental statistical laboratory. The Galen L. Stone Tower, named for its donor, who was long a trustee of the College, houses a carillon which was the gift of Mrs. Charlotte Nichols Greene.

PENDLETON HALL, erected in 1935, was named at the request of the students in honor of Ellen Fitz Pendleton, president of the College from 1911 to 1936. It contains the laboratories, lecture rooms, libraries, and offices of the departments of Chemistry, Physics, and Psychology. Extensive facilities and equipment provide opportunity for advanced work in various fields of chemistry, including chemical spectroscopy and instrumental analysis; in optics, electronics, and atomic physics; and in various types of experimental psychology.

THE RECREATION BUILDING was opened in 1939. It contains game rooms, badminton and squash courts, lounges, and the George Howe Davenport Swimming Pool which bears the name of the trustee who gave generously toward its construction.

THE JEWETT ARTS CENTER, completed in 1958, was the gift of the late Mr. George Frederick Jewett, his wife (now Mrs. David Gaiser), their son, George Frederick Jewett, Jr., and their daughter, Mrs. William H. Greer, Jr. Mrs. Gaiser, a trustee of Wellesley College, is an alumna, as is her daughter and as was Mr. Jewett's mother. The Center consists of the Mary Cooper Jewett Art Building and the Margaret Weyerhaeuser Jewett Music and Drama Building.

THE MARY COOPER JEWETT ART BUILDING contains the museum, slide collections, classrooms, studios, study rooms and offices of the Art Department and, through the use of a bequest from Mrs. William Hewson Baltzell, a trustee of the College from 1930 to 1938, the Art Library. The museum collection contains choice examples of classical and medieval art; sculptures by Sansovino, Lehmbruck, and Maillol; a famous early Corot and other paintings by such artists as Crespi, Magnasco, Strozzi, Terborch, Cezanne, and Picasso; and,

on extended loan, some masterpieces from the Norton Simon Foundation.

THE MARGARET WEYERHAEUSER JEWETT MUSIC AND DRAMA BUILDING contains the music library of books, scores, and recordings; listening rooms, practice studios, classrooms, and offices of the Music Department, and a variety of musical instruments including a baroque organ, a clavichord, and a harpsichord; also a rehearsal room and workshop for the College Theatre, and an auditorium seating 350 people for lectures and concerts and for experimental theatre.

WELLESLEY COLLEGE CLUB, completed in 1963, is a center for faculty and alumnae. It has a few bedrooms for official guests, alumnae, and parents of students and prospective students.

### RESIDENCE HALLS

The thirteen residence halls for undergraduate students compose three groups on the campus. Each group is approximately the same distance from the central academic buildings. In the northwest section are Munger Hall and Hazard Quadrangle, which is formed by four halls, Beebe, Cazenove, Pomeroy, and Shafer. Tower Court, Clafin, and Severance Halls are together on the hill overlooking Lake Waban where the original College Hall once stood. The third group stretches east from Stone and Davis on the lake shore to Bates, Freeman, and McAfee Halls.

MUNGER HALL, which houses about 125 students, was given by Miss Jessie D. Munger, of the Class of 1886, in honor of her mother, Gertrude C. Munger. Each of the halls in the HAZARD QUADRANGLE, which is named in honor of Wellesley's fifth president, accommodates about 120 students. BEEBE was made possible by a legacy from Captain John Allen Beebe, a Nantucket sea captain and the father of Alice B. Beebe, of the Class of 1896. CAZENOVE, the gift of Pauline Durant, who with her husband founded the College, bears the name of Mrs. Durant's mother; POMEROY, too, is named for its donor, Mrs. Martha D. Pomeroy, who bequeathed the funds to build it. SHAFER honors the memory of Wellesley's third president.

TOWER COURT, so named because of its tower in the central part separating the two wings and because of its courtyard overlooking the lake, houses approximately 235 students. It was the gift of Ellen Stebbins James. CLAFLIN accommodates about 120 and SEVERANCE 145 students. CLAFLIN is named in memory of William Claflin, Governor of Massachusetts and a member of the original corporate body of the College in 1870, while SEVERANCE bears the name of Elizabeth Severance Prentiss, of the Class of 1887, who was the largest individual donor to the building.

STONE and DAVIS HALLS house about 100 students each. The present Stone Hall was built on the site of old Stone Hall, which was made possible by a gift from Mrs. Valeria G. Stone. John D. Rockefeller, Jr. made generous contributions toward the present Stone and Davis Halls. Olive Davis, for whom Davis Hall is named, was a member of the Class of 1886 and for many years Director of Residence at Wellesley; upon her death she made Wellesley her residuary legatee.

BATES HALL is named in memory of Katharine Lee Bates, of the Class of 1880, for many years a professor of English literature at Wellesley; FREEMAN HALL in memory of Alice Freeman Palmer, Wellesley's second president; and MCAFEE HALL in honor of Mildred McAfee Horton, Wellesley's seventh president. These dormitories each house about 140 students.

## GIFTS TO WELLESLEY

The College welcomes outright gifts of cash, gifts of securities and gifts of other property. The College provides income for life to donors who invest in either an Annuity or a Life Income Plan.

### FORMS OF BEQUESTS

An unrestricted bequest to Wellesley may be worded:

“I give to Wellesley College, Wellesley, Massachusetts, the sum of ..... dollars.”

In the case of a bequest for a specific purpose, it is wise to allow considerable latitude in the use of any fund, so that changing conditions will not impair the usefulness of the gift. Thus, such a bequest may be expressed:

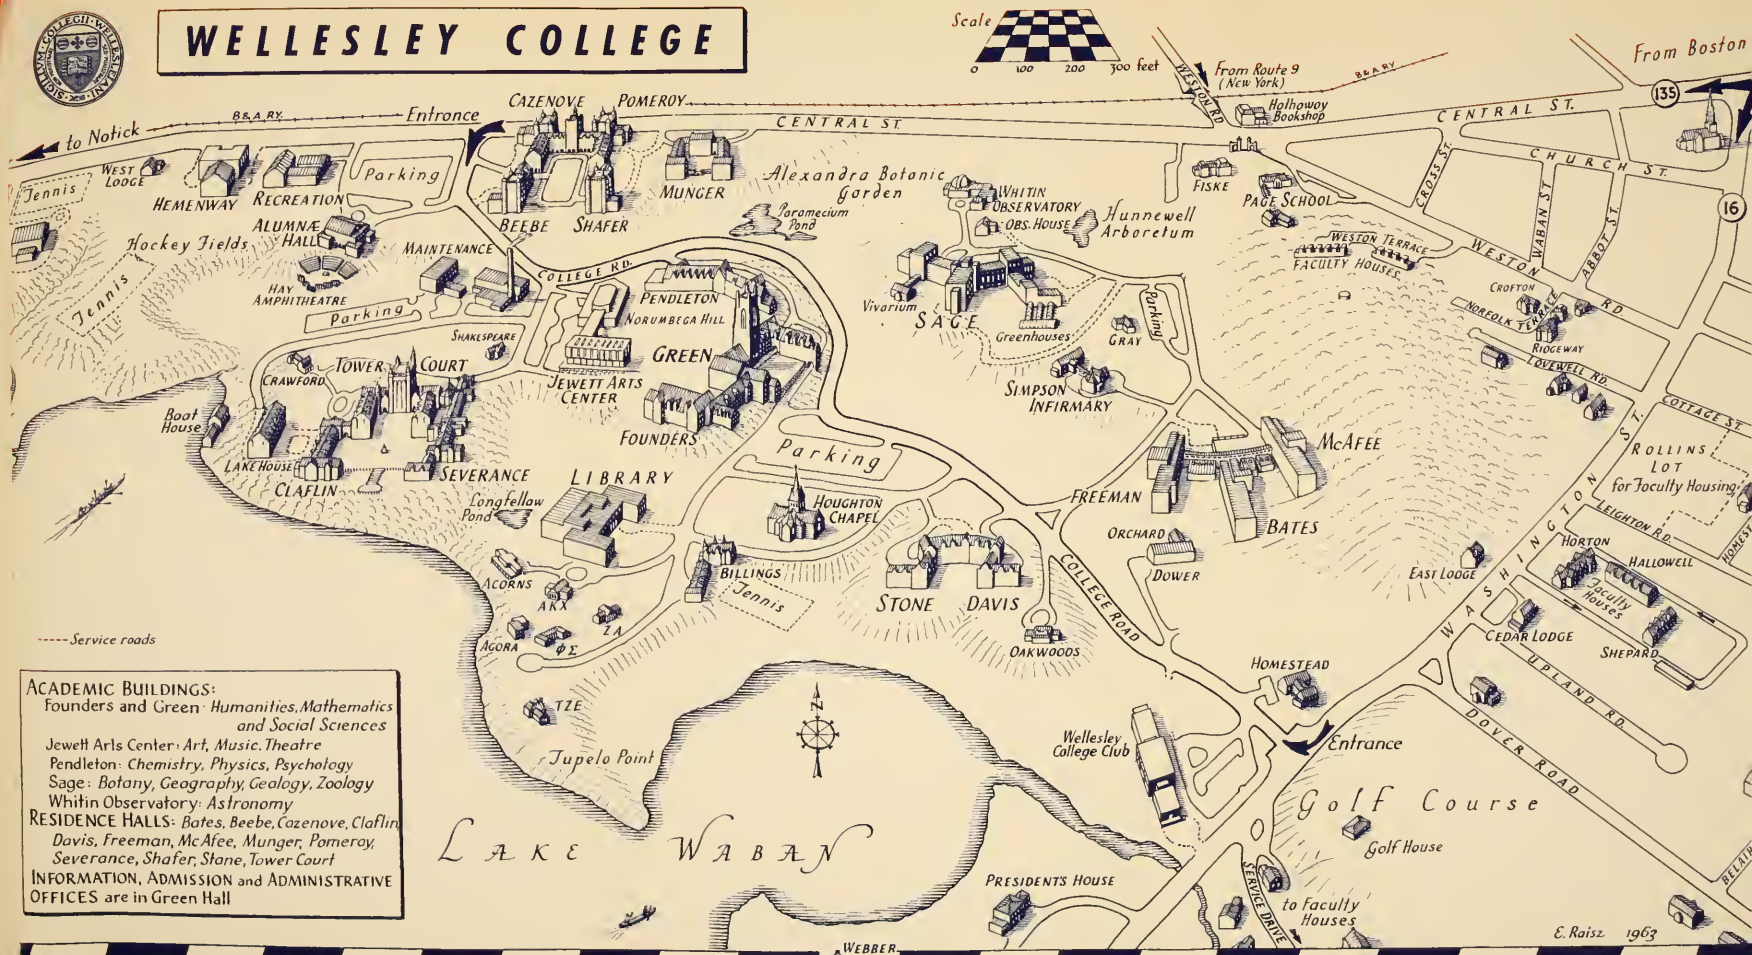

“I give to Wellesley College, Wellesley, Massachusetts, the sum of ..... dollars, the income only to be used for ..... (here describe the purpose in as broad and simple terms as possible, as for example, faculty salaries or scholarships).” The more limited the use, the more important it is to add a provision such as, “If, in the future, the Trustees of the College determine that it is no longer practicable to use the income for this purpose, it may be used for other needs of the College.”

A residuary bequest to Wellesley may read as follows:

“All the rest, residue and remainder of my real and personal estate, I give to Wellesley College, Wellesley, Massachusetts,” et cetera.
